ACADEMIC PROJECTS

MindPal - An Android App for Alzheihmer's patients (04/2022 - 05/2023)
- This app has user friendly chatbot for interacting with the patient.
- Tracks the patient's progress and adapts to their preferences.
- Learns their habits and patterns to provide personalized reminders and suggestions.
- Enable caretakers and family members to monitor the patient's activities and receive alerts in case of missed medications or unusual behavior.

Diagnostic Lab Tracking System (06/2019 - 11/2020)
- Manages and organizes patient data, including medical history, test results, and diagnostic reports.
- The system keeps a record of patients' previous visits, test results, etc.
- Ensures that all information is securely stored and it is easily accessible.
- Allowing healthcare professionals to retrieve and review patient data quickly and accurately during subsequent visits.

Personal Portfolio Website
- Portfolio website using HTML, CSS and Javascript.
- This Website showcases my talent, skills and projects.
- Serves as a platform for personal branding, aspirations and vision.

CERTIFICATION

JPMorgan Software Engineering Virtual Internship - June 2023
Used Perspective data visualization software and Python to monitor stock price trends and create trading strategies.

Getting started with Full Stack Java Development
(1 / 2023 - 03 / 2023)

Android App Development Training
(07 / 2021 - 09 / 2021)
